Directions for the ViewAll – ProImage Database Migration

Please Note: *The migration will only work for ProImage 6.5 and above, if you have an earlier version please call tech support at 800.929.4413 for assistance. Also, verify that you have sufficient hard-drive space for the database migration. Duplicate copies of all your image files will be made.*

Install ViewAll	
Step 1:	Insert the ViewAll installation disc into the computer
Step 2:	The installation process should start automatically. If not, click *Start*, then *Computer* and double click on the ViewAll disc
Step 3:	Double click on the *Setup.exe* file
Step 4:	Click *Install* to begin the installation. Finish this installation

Install Database Migration Tool	
Step 1:	Insert the Database Migration USB drive into the computer
Step 2:	Double click the *Setup.exe* file
Step 3:	Click *Next* to begin using the installer guide
Step 4:	Click Install to begin the installation
Step 5:	Wait for the installation to complete, click *Finish*
Step 6:	Launch ViewAll from the desktop shortcut
Step 7:	Choose *Unblock* if the windows security window opens
Step 8:	Click *Login*
Step 9:	Register the software if still in 30-day trial mode
Step 10:	Go to *Tools → Import ProImage Database*
Step 11:	Read the warning message. Verify that you have enough free hard-drive space and then click *Continue*
Step 12:	Select your ProImage database file and click *Open*
Step 13:	Depending on the size of your database and the number of images to be imported, this process can take several hours. Wait for the "The ProImage Database was successfully imported!" message to be displayed.
Step 14:	Click *OK*
